NABCO  
NATIONAL ALLIANCE OF BREAST CANCER ORGANIZATIONS

Most colon cancers start as benign polyps that can be removed by a simple procedure. This is one cancer we can stop before it starts. If you are age 50 + please follow the American Cancer Society's guidelines for early detection.

Fecal occult blood test (FOBT) every year and flexible sigmoidoscopy every 5 years  
OR  
Colonoscopy every 10 years  
OR  
Flexible sigmoidoscopy every 5 years  
OR  
Double contrast barium enema every 5 years  
OR  
Fecal occult blood test (FOBT) every year

\*Please Note: these guidelines are for people without symptoms, personal history. Your physician may wish to check you more frequently.

NATIONAL OSTEOPOROSIS FOUNDATION

Developed by a leading scientist that unites the bones and ribs individuals of their face system was inspired by the National Osteoporosis Foundation to create the "The Bones, While the Face Symbolizes the Bones, the Ribs Symbolize the Spine." If repeated the complex compression of the bones can weaken, gradually change in features. Research and education are absolutely critical to the fight against the disease. By wearing this ribbon, you're saying that together, we can stand up to osteoporosis.
